Introducing

EDUQUAL Level 7 Implant Year 1
Masters Level Certificate

Renowned for its exceptional introduction into implant dentistry to dentists with little or no implant experience.

About

Surgical Experience is no barrier as will teach and demonstrate the basic concepts of oral surgery including flap design and suturing. Modules include training with guided surgery and the use of the magnetic mallet. 12 modules over 12 months based in London, Leicester, Leeds and Cheshire UK. Fully compliant with GDC and FGDP(UK) guidelines for implant training.

- Treatment Planning - Surgical Principles - Implant Prosthetics
- Advanced Prosthodontics - The Edentulous Patient
- Implant Maintenance - The Magnetic Mallet - CBCT
- Bone Grafts - Occlusion - Managing Complications

Introducing

Introducing our nationwide Level 7 (Masters level).

A mix of practical and theoretical education by wet-fingered implant dentists.

About

This comprehensive 12-month program, delivered across London, Leicester, Leeds, and Cheshire, UK, provides intensive training in oral surgery fundamentals, regardless of your current experience level. Our expert instructors will guide you through flap design, suturing techniques, and even hands-on practice with guided surgery and the magnetic mallet.

- Bone augmentation - Complex Implant cases - Sinus Lifts
- Live Patient Simulation - Atraumatic extraction technique
- Grafting Materials - Hard & Soft Tissues - Vertical Freedom
- Medicolegal aspects - Immediate Loading - Laboratory work
- Provisional restoration - Advanced restoration - Full Arch
