Justin Kang

Digital Workflow to All-on-X

SPEAKER'S BIO

Justin Kang

- Diplomate, American Board of Periodontology
- MS in Periodontics, Columbia University College of Dental Medicine
- DMD, University of Pennsylvania School of Dental Medicine
- Clinical Advisor, Geistlich® Biomaterials
- Head Faculty, Phelps Institute
- Faculty, Global Dental Implant Academy (GDIA)
- Member of American Academy of Periodontology, Academy of Osseointegration

Skilled and compassionate, Dr. Kang builds lasting relationships with his patients while providing exceptional dental care. Dr. Kang aims to understand his patient's individual needs and circumstances, and collaborates closely with restorative dentists and other dental specialists to deliver optimal care. Dr. Kang employs cutting-edge technology such as the Fotona® laser for minimally invasive treatment of periodontal disease and peri-implantitis, Advanced Plasma Rich Fibrin (A-PRF) for surgical procedures and facial esthetics, and Pinhole Surgical Technique™ for treatment of gum recession.

Dr. Kang furthers his education through research on dental implants, periodontal regeneration, and biomaterials. He serves as Clinical Advisor for Geistlich® Biomaterials, one of the largest global manufacturers of regenerative materials including bone grafts and collagen membranes. Furthermore, as head faculty at Phelps Institute (Charlotte, NC), Dr. Kang conducts dental implant training courses for dentists consisting of both didactic and surgery on live patients. His passion for esthetic dentistry and dental occlusion has provided him with opportunities to lecture at post-graduate programs and dental meetings.

ABSTRACT

Digital technology such as Intraoral Scanners and Photogrammetry has allowed for a more efficient and accurate approach to All-on-X. This short webinar will review the evolution of All-on-X from analog to digital workflow and introduce a novel digital scanbody system that serves as both intraoral scanbody and verification jig.

Other topics to be discussed include:

- 1) Management of restorative space in planning and executing Full Arch Restorations;
- 2) Step-by-step overview of planning and executing All-on-X surgery and restorations;
- 3) Introduction of the Truss system for complete digital workflow.

SCIENTIFIC PROGRAMME

October 20, 2026 | 6.00 pm EST

Free Online webinar

5:50 PM EST – Access on Zoom

6:00 PM EST – Start of the session

7:00 PM EST – End of the session

CALENDAR AND TIMETABLES

OCTOBER 20, 2026

6:00 pm EST

PARTICIPATION FEE
