Short Hills, NJ

Kilner Stuart

Predictable regeneration &
immediate implants:
simple, reproducible protocols
for daily practice

SPEAKER'S BIO

Dr. Kilner Stuart

Dr. Stuart J. Kilner, BDS, MSc (Adv Oral Implantology), PGDip (Aesthetic Dentistry), is a London-based implant and restorative dentist. He is Director of Education for EthOss Regeneration and lectures internationally on regeneration-led implantology. Stuart's focus is on simple, reproducible clinical systems that improve patient outcomes and everyday practice.

ABSTRACT

This clinical session covers a regenerative approach to implant dentistry -from single-tooth defects to compromised sites and full-arch. I'll outline case selection, site preparation, grafting workflows, and immediate placement/loading tips that reduce complications and chair time. Real cases, step-by-step photos will be used to translate evidence and experience into practical protocols attendees can implement the next day.

LEARNING OBJECTIVES:

- Apply a clear site-prep and regeneration workflow with PRAMAW implants for predictable healing
- Place immediate implants with stability and soft-tissue control
- Anticipate and troubleshoot common complications

SCIENTIFIC PROGRAMME

Thursday October 9, 2025 | 6.30 pm - 8.15 pm

Ruth Chris Steak House | 1200 Morris Tpke, Short Hills, NJ 07078

6:30 pm Cocktail hour

7:15 pm Lecture

8:15 pm Conclusions
