SPEAKER'S BIO

Dr Vanila Godara

Dedicated Dentist offering 14 years of experience practicing dentistry in coordination with highly skilled staff. Skilled at developing effective treatment plans for patients experiencing tooth decay and other various oral diseases and issues.

Committed to providing personalized patient care through quality service and communication.

Accommodating when helping patients overcome dental fears by displaying patience and compassion. Organized and detail-oriented Dentist versed in instructing patients on proper dental hygiene techniques to maintain optimal oral health.

Highly skilled and patient-focused owner dentist with extensive experience in advanced restorative dentistry and full-mouth rehabilitation.

Expertise in Digital Smile Design (DSD), All-on-X procedures, and implant surgeries.

Proven track record of leading a successful dental practice, mentoring fellow professionals, and delivering exceptional patient care through innovative techniques and state-of-the-art technology.

ABSTRACT

This lecture is designed to inspire and equip general dentists with the confidence and clinical insight to take on full-arch implant cases using cutting-edge tools and workflows. Highlighting the elegance and biological advantages of the PRAMAW implant system, the simplicity and efficiency of the Shelta Power full-arch protocol, and the precision of Yomi robotic-guided implant placement, this presentation bridges aesthetics, technology, and accessibility.

Through real clinical cases and workflow breakdowns, attendees will see how these systems work in harmony to deliver life-changing results. Most importantly, this lecture will break the myth that full-arch implant dentistry is only for specialists- if I can do it, you can too.

LEARNING OBJECTIVES:

1. **Recognize the aesthetic and biological advantages of PRAMAW implants:** Understand how PRAMAW's unique design supports long-term soft tissue health and natural-looking restorations.
2. **Master the Shelta Power Full Arch Workflow:** Learn how to implement a prosthetically driven, streamlined protocol for predictable All-on-X cases.
3. **Discover the benefits of Yomi robotic guidance:** Explore how robotic-assisted implant placement enhances accuracy, patient safety, and surgical confidence.
4. **Build confidence in performing Full Arch cases as a GP:** Learn how to overcome common barriers and start incorporating All-on-X treatments into your practice-even without a surgical specialty.
5. **Apply a complete digital and surgical workflow:** Gain practical tips on integrating digital planning, implant placement, and immediate temporization for full arch success.
