SPEAKER'S BIO

Publio Silfa

Founder & Clinical Director, Silfa Dental Aesthetics
Third-generation dentist, educator, and practice owner with more than 20 years of clinical experience. Dr. Silfa focuses on comprehensive smile rehabilitation, facially driven treatment planning, digital dentistry, and a hospitality-first patient experience. His interdisciplinary approach integrates surgery, restorative dentistry, and laboratory workflows to deliver predictable, patient-centered outcomes.

Career Highlights

- Founder of Silfa Dental Aesthetics.
- Averages approximately 100 implant-supported arch rehabilitations annually.
- Averages approximately 50 comprehensive full-mouth interdisciplinary rehabilitations each year.
- Lecturer and educator in advanced restorative and implant dentistry.
- Leads an in-house digital laboratory utilizing CAD/CAM, 3D printing, photogrammetry, and Digital Smile Design workflows.

Technology Leadership

Dr. Silfa has built a fully digital implant practice integrating CBCT imaging, intraoral scanning, Digital Smile Design, photogrammetry, CAD/CAM manufacturing, and an in-house laboratory to streamline complex implant rehabilitation.

Expert in robotic and digital dentistry

Academic & Invited Teaching

Faculty/Lecturer - NYU Full Mouth Rehabilitation Program
Invited Lecturer - Columbia University College of Dental Medicine
Invited Speaker - Nova Southeastern University
Chicago Lab Day - Digital Dentistry / iTero Lumina

Featured Lecture Topics

- Full-Arch Implant Rehabilitation
- Digital Smile Design & Facially Driven Treatment Planning
- Digital Workflows & Photogrammetry
- Yomi® Robotic Implant Dentistry
- Emotional Dentistry: integrating empathy, hospitality, communication, and emotional connection with advanced clinical excellence to transform the patient experience.

Education

- Doctor of Dental Surgery - Columbia University College of Dental Medicine
- Advanced Education in General Dentistry (Chief Resident) - NewYork-Presbyterian/ Columbia
- University Irving Medical Center

SILFA DENTAL

Ninth District DENTAL ASSOCIATION

ABSTRACT

This program will explore advanced strategies for improving efficiency, predictability, and communication within the implant prosthetic workflow.

Emphasis will be placed on coordination between surgical and restorative phases, case planning considerations, and techniques that support long-term clinical success.

The session will be structured as an interactive, discussion-based program rather than a traditional lecture. While key concepts will be introduced through a focused presentation, the emphasis will be on open dialogue, shared clinical experiences, and practical insights from participating clinicians.

Participants are encouraged to engage, ask questions, and contribute their own approaches, creating a collaborative environment centered on real-world application, improved outcomes, and continuous refinement of clinical workflows.

EDUCATIONAL OBJECTIVES

At the conclusion of this course, participants should be able to:

- Identify key stages in the implant prosthetic workflow that impact treatment success.
- Apply strategies to improve communication between surgical and restorative teams.
- Evaluate common challenges in implant cases and implement solutions to improve outcomes.
- Integrate workflow optimizations into daily clinical practice.

SCIENTIFIC PROGRAMME

December 9, 2026 | 6.30 pm EST

ACQUARIO RESTAURANT: 141 Lake St, West Harrison, NY 10604

6:30 pm	Cocktail hour
7:15 pm	Lecture
8:15 pm	Conclusions
