Albert Coombs

Most common dental
problems and solutions
utilizing dental implants

SPEAKER'S BIO

Albert Coombs

Dr. Albert Coombs III is a Washington, DC-based implantologist and owner of Smile Services DC, a practice committed to serving diverse and underserved populations with comprehensive dental care. With over a decade of clinical experience, Dr. Coombs has placed thousands of implants and is recognized for his expertise in full-arch rehabilitation and advanced grafting techniques.

A graduate of Tufts University School of Dental Medicine, Dr. Coombs has completed extensive training in implantology and prosthetics and has worked with a variety of leading systems, currently focusing on Sweden & Martina. He is passionate about education, mentorship, and expanding access to cutting-edge implant care through both private practice and professional training.

Dr. Coombs was named one of Incisal Edge's "40 Under 40" top young dentists and serves as a national advocate for Medicaid dental coverage. His lectures aim to combine evidence-based protocols with real-world, case-based learning.

ABSTRACT

This lecture explores the wide-ranging role of dental implants in addressing some of the most common and challenging dental problems. Topics include management of single-tooth fractures, occlusal breakdown due to bruxism, and extensive tooth loss resulting from periodontal disease. We will discuss how to evaluate and treat cases ranging from small, straightforward implant placements to complex full-mouth rehabilitations. Attendees will gain insights into diagnostic workflows, treatment planning, and clinical strategies to optimize both functional and esthetic outcomes.
