Nottingham

Dr Selvaraj Balaji

Beyond the implant :
mastering Hard & Soft tissue
for long term outcomes

SPEAKER'S BIO

Dr Selvaraj Balaji

Dr. Balaji is an experienced dental surgeon with over 16 years in private practice, based in Buckingham. After gaining extensive surgical dentistry training in the UK's maxillofacial units, he went on to specialize exclusively in dental implants and regenerative techniques.

Founder of the Academy of Soft and Hard Tissue Augmentation (ASHA), Dr. Balaji has placed several thousand implants and trained with world-renowned experts, including Prof. Giovanni Zucchelli (Italy), Prof. F. Khoury (Germany), Istvan Urban (Hungary), and Dr. Hilt Tatum (USA).

He holds postgraduate qualifications from Glasgow, Edinburgh, and London, and is passionate about mentoring fellow dentists. With a commitment to innovation and excellence, Dr. Balaji ensures his patients receive the highest standard of advanced implant and regenerative care.

AIMS

- To provide a comprehensive understanding of soft tissue augmentation techniques in implant dentistry.
- To enhance knowledge of the materials and methods used for successful bone and soft tissue regeneration.
- To highlight the challenges and potential complications in soft tissue augmentation procedures.

OBJECTIVES

1. Understand the Principles:

- Learn the biological mechanisms behind soft tissue regeneration in implant dentistry.

2. Identify Indications:

- Recognize when and where soft tissue augmentation are necessary in clinical practice.

3. Explore Materials and Techniques:

- Review the various soft tissue grafting techniques (connective tissue grafts, free gingival grafts, etc.).

4. Soft Tissue Regeneration:

- Learn soft tissue regeneration techniques and the importance of managing gingival biotypes for implant success.

5. Complications and Management:

- Understand common complications in soft tissue augmentation and their management strategies.
